## TRENCH SHEET PRODUCT AND SERVICES INFORMATION

**Meever Middle East** has a dedicated sales team and engineering professionals able to find the best and most efficient solution to provide support throughout your projects. We design and specify the sheets in accordance with the relevant standards and guidance documents which suits your project requirements. We ensure solutions that are cost-effective and tailored to your project. Solutions that are characterized by fast, on-time deliveries and guaranteed high quality standard product and services.

### TRENCH SHEETS MANUFACTURING

Meever Middle East Trench Sheets are available in a wide range of profiles and lengths are specified to support the vertical faces of most small to medium sized trenches and excavations.

Meever Middle East Trench sheets are manufactured in Musaffah, Abu Dhabi, UAE in a variety of steel grades to BS EN 10.249 and are produced in different, length, width and thickness based on ISO 9001:2008 Quality Management System. Unless explicitly requested, our trench sheets are currently being supplied without pitching hole, but are available upon request and to be provided as standard at one end of the sheet.

We can handle large orders, but you can also place smaller orders easier as no order is taken "lightly". Our highest degree of service and commitment goes into fulfilling every order, regardless of size.

### TRENCH SHEET CONSTRUCTION SERVICE

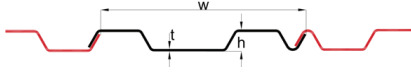

Meever Middle East have a wealth of experience in the construction industry. With our technical and operational team delivering projects safely in compliance with ISO 14.001 and OSHAS 18.001 (Health, Safety and Environmental System), on time completion of projects within budget for multitude of clients, Meever Middle East are capable of meeting and exceeding any of your trench sheet expectations.

Meever Middle East provides full range of services including, design, engineering, planning and construction shoring services and ensure installation and extractions of trench sheets conform to any demand of your projects. Our approach is to work in close contact with our Clients and engage key personnel to create best fit solutions on a project by project basis to enable us to remain the Middle East and Africa's leading trench sheet piling specialist.
